

ESTEBAN OLIVEROS

Last Update: 05/2020

Senior Software Engineer

GlobalLogic

07/2018 - Ongoing

Buenos Aires, Argentina

Worked as a member of the outsource backend team of an important e-learning platform, from USA, maintaining the REST API and services, and developing new features. Because of my previous experience, I became leader of the team and dealt with the communication with the client. During this time:

- Support the team on their technical knowledge and provide my insight on any problems they might encounter.
- Mentor and coach my team with the objective of improving their skills.
- Created a program for the growth of RoR developers in the company.
- Improved the communication between the team and the client.

Technologies: RoR, PostgreSQL, Redis, Kafka, Sidekiq, Rspec.

Technical Lead

Cleteci

06/2017 - 07/2018

Buenos Aires, Argentina

Lead the main development team in charge of building a CRM/SaaS platform for a client in the travel agencies industry. As part of this team, I was in charge of developing all the main features of the platform (client/travels management) and the authentication / authorization of the users. During this time:

- Developed the billing module of the platform, to start charging for the use of the platform.
- Created a training system that helped the developers to improve their technical skills.
- Planned with the client the characteristics of the application and the new features.
- Implemented CD/CI.
- Migrated the platform from Heroku to AWS.

Technologies: RoR, PostgreSQL, Heroku, AWS, CircleCI, Cucumber.

Ssr Full-Stack Developer

Cleteci

12/2015 - 06/2017

Caracas, Venezuela

Main developer building a CRM/SaaS platform for a client in the travel agencies industry, focused on new features and improvements. During this time:

- Introduced the concept of good practices in the team.
- Refactored the application to be able to adjust to the conventions of the tools and framework used in the project.
- Developed a campaign delivery system for marketing, similar to MailChimp

Technologies: RoR, AngularJS, Angular 2, NodeJS, Sass, HTML, Javascript.
